DETAILED ACTION

Reissue Applications

The reissue oath/declaration filed with this application is defective (see 37 CFR 1.175 and MPEP § 1414) because of the following: The present case is a broadening reissue application and as such it must be filed with the inventors' signature on the declaration. If the inventors are unavailable or refuse to sign a petition to prosecute without the nonsigning inventors must be filed. See 37 CFR 1.47.

Claims 1-17 are rejected as being based upon a defective reissue declaration under 35 U.S.C. 251 as set forth above. See 37 CFR 1.175.

The nature of the defect(s) in the declaration is set forth in the discussion above in this Office action.

The format of the amendment is improper. All changes with respect to the printed patent must be indicated by underlining new subject matter; and/or bracketing subject matter selected for deletion. See 37 CFR 1.173 (b).
